Results

Revenue for the year was £3.18m (2010: £2.83m) with profit before tax and exceptional items of £414,000 (2010: £288,000). The overall profit for the year attributable to shareholders was £331,000 (2010: £242,000).

The board is proposing a final dividend of 0.75p per share (2010: nil). The final dividend is subject to shareholders approval at the AGM and will be paid on 29 September 2011 to those shareholders on the register at the close of business on 2 September 2011. With the interim dividend of 0.75p per share (2010: 1.00p per share) already paid, the total ordinary dividend for the year will amount to 1.50p per share (2010: 1.00p).

The Commercial Property Market

There remains a significant weight of money seeking suitable commercial property investments and the market continues to be strongly polarised between low risk prime property let on long leases to strong covenants together with multi let industrial, which most of the market want to buy, and the remainder. London and the South East is seen as the most likely area for rental growth and is thus in demand with Central London offices and prime retail now selling at yields at, or marginally below, the previous peak in the market. Elsewhere in the country the market is very patchy.

Rental growth is hard to find outside central London but all is not doom and gloom. We find, particularly in the industrial properties within the various portfolios we manage, that lease renewals and relettings are taking place throughout the country albeit at rents that are generally lower than those previously paid, and 6-12 month rent free periods are being granted to secure lettings.

Business Overview

The strong performance of our transaction business reported in the Interim Statement continued at a satisfactory but slightly lower rate in the second half and we have started the new year with a good level of sales instructions.

It is still a challenging market in which to acquire properties but we made a significant acquisition in the City for one of our discretionary funds and one or two smaller properties were acquired for clients. We continue to look for a further acquisition in the City or Mid Town for our SHIPS fund.

Until the level of lending by the Banks increases the market in secondary and tertiary property, which has been traditionally debt financed, is unlikely to improve significantly. Those purchasers seeking prime investments are being frustrated by the lack of supply and may start to look at very good secondary properties later in the year.

I reported last year that our fund management mandates performed well and that has continued.

Meghraj Properties Limited who last year appointed us to manage a portfolio of properties have added to that portfolio during the year.

We have also been appointed to manage six prime office buildings in Mayfair and the City for an off shore European investor.

Despite the difficulties in the economy and the cutbacks we continue to collect 96% of all rents due within three days of the quarter day. Although bank valuations remain at a very low level our quarterly and annual portfolio valuations continue apace.

Rating has been active this year with some significant reductions achieved for a number of our clients. Our client list continues to expand and we expect the forthcoming year to be good for that part of our business.

Outlook

The coming year will be challenging and it will not be easy to match the performance of this year.

We have started the new year with a good level of investment sale instructions, the majority of which are in the "difficult to sell" sector. Rating remains strong but the Banks are lending very little into the sector and our valuation business remains subdued. We are working hard to grow assets under management and we are looking for some growth in investment broking.

This year's results have not been achieved without a considerable amount of very hard work from our Directors, staff and the continuing loyalty of our valued clients and I thank them.

DAVID FLETCHER
CHAIRMAN

28 July 2011

The Directors present their report and accounts for the year ended 30 April 2011.

Principal Activities and Business Review

The Group carries on the business of property fund management, property asset management, rating, valuations and commercial estates agency, providing a comprehensive range of services and expert advice throughout the United Kingdom.

A review of the Group's business and activities during the year and its future prospects is contained in the Chairman's Statement.

Results and Dividend

The consolidated statement of comprehensive income is set out on page 11. The profit for the year after taxation is £331,000 (2010: £242,000). The Directors recommend the payment of an ordinary final dividend of 0.75p per share (2010: nil). An interim dividend of 0.75p per share (2010: 1.00p per share) has already been paid to shareholders.

Capital and equity interests

Basic and diluted earnings per share from continuing operations amounted to 3.59p (2010: 2.63p). During the year no shares were issued to directors or employees pursuant to the exercise of share options.

The total number of ordinary shares in issue at 30 April 2011 was 9.2 million (2010: 9.2 million).

Cash flow and liquidity

Net cash inflow from operating activities amounted to £801,000 (2010: outflow of £4,000) which, after allowing for cash flows including dividends and capital expenditure, resulted in a net increase in cash balances of £755,000 (2010: decrease of £162,000).

At 30 April 2011, the Group's cash at bank and on short term deposit amounted to £2.7 million (2010: £2.0 million). This was deposited with banks with top credit ratings.

Key Performance Indicators

There are three main key performance indicators for the Group, all of which are financial:

- Group turnover
- Operating profit
- Earnings per share

These key performance indicators are reviewed in the Chairman's Statement and the Directors Report above.

Risk Identification and management

The identification, control and monitoring of risks facing the business remain a management priority and steps continue to be taken to improve risk management procedures.

Financial risk management

The Group manages its treasury operations in accordance with policies and procedures approved by the Board. Information about the Group's policies on financial instruments is set out in note 3 of the accounts. The Group has no borrowings. As the Group operates almost exclusively in the United Kingdom, there are no significant direct foreign exchange risks. The Group has in place a risk management programme that seeks to limit the adverse effects on the financial performance of the Group and these are outlined in note 24 to the accounts.

Economic Risk

The main economic risks that could affect the Group's performance are a major slowdown in the economy of the UK and a slump in UK commercial property values. The Group has, where possible, implemented actions to mitigate some of the effects of these risks. A detailed review of the Group's performance, financial results, future development and prospects is contained within the Chairman's Statement.

Finance income and taxation

Income from the Group's available-for-sale investments and net bank interest amounted to £23,000 (2010: £26,000) reflecting lower prevailing interest rates.

The effective taxation charge was 27.8% (2010: 28.0%).

Political and Charitable Donations

During the year the Group made no charitable donations or political contributions (2010: £ nil).

No executive Directors at 30 April 2011 received any pension entitlements.

Supplier Payment Policy

The Company's policy, which is also applied by the Group, is to settle the terms of payment with suppliers when agreeing the terms of each transaction. This ensures that suppliers are made aware of the terms of payment. Trade creditors of the Group at 30 April 2011 were equivalent to 25 days (2010:27 days) purchases, based on the amount invoiced by suppliers during the year.

Corporate social responsibility

The Board recognises the importance of social and environmental matters in the conduct of the Group's business and remains committed to social and environmental awareness throughout its operations, notwithstanding the relatively low environmental impact of the Group's activities.

Energy efficiency, recycling and the use of "fair trade" products are encouraged.

The Board recognises that enthusiastic, well-trained and high-quality staff are essential to the achievement of the Group's commercial objectives. Participation in the success of the Group is encouraged via comprehensive incentive schemes.

The Group provides employment on an equal basis irrespective of race, sex, disability, sexual orientation and religious beliefs. Employee communication and feedback is encouraged across the Group.

Authority to Allot Unissued Shares

In accordance with normal practice the Directors propose to take the usual authorities under Sections 551 and 570 of the Companies Act 2006. Therefore it is proposed to extend the Section 551 authority given at the last Annual General Meeting on 23 September 2010 for a further year in respect of ordinary 10p shares up to a maximum of 1,790,221 shares (£179,022). Apart from possible issues under the Employee Share Option Scheme there is at present no intention of issuing any further ordinary shares. In any event, no issue will be made which would effectively alter the control of the Company without the prior approval of the Company in general meeting.

Purchase of Shares

The Directors, in line with boards of directors of other listed companies, consider that it would be appropriate for the Company to have the authority to purchase its own shares as one of a range of investment options available to them, more especially if the purchase of its own shares produced an improvement in earnings per share. Shareholders should be assured that the Board will commence share purchases only after careful consideration and after taking account of the overall financial position of the Group.

An ordinary resolution will be proposed to authorise the Company to make market purchases of up to a maximum of 460,000 of its own shares, representing less than 5% of the existing issued ordinary shares. The maximum price to be paid on any exercise of the authority will be restricted to 5% above the average of the middle market quotation as derived from The London Stock Exchange Daily Official List for the ordinary shares for the ten dealing days immediately prior to purchase. The minimum price that may be paid for the ordinary shares is the nominal value of 10p per share. The authority for the purchase sought at the Annual General Meeting will expire at the conclusion of the following Annual General Meeting which is expected to take place in September 2012. The intention of the Board is to seek to renew the authority at future Annual General Meetings

Statement of Directors' Responsibilities

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the group and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state that the financial statements comply with IFRSs as adopted by the European Union;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Disclosure of information to the auditors

In the case of each person who was a Director at the time this report was approved, so far as that Director was aware there was no relevant available information of which the Company's auditors were unaware; and that Director had taken all steps that the Director ought to have taken as a Director to make himself aware of any relevant audit information and to establish that the Company's auditors were aware of that information.

Auditors

A resolution to reappoint the auditors, Nexia Smith & Williamson, will be proposed at the forthcoming Annual General Meeting.

This report was approved by the Board on 28 July 2011.

1. General information

Fletcher King Plc ('the Company') and its subsidiaries (together 'the Group') carry on the business of property fund management, property asset management, rating, valuations and construction services throughout the United Kingdom. The Company is a public limited company incorporated and domiciled in England and Wales and listed on the Alternative Investment Market of The London Stock Exchange. The registered office address is 61 Conduit Street, London W1S 2GB. These consolidated financial statements were approved for issue by the Board of Directors on 28 July 2011. They are presented in Sterling which is the Group's functional currency. The Group has no overseas operations.

2. Basis of preparation and presentation of financial statements

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union applied in accordance with the provisions of the Companies Act 2006, and under the historical cost convention.

New standards and interpretations

At the date of authorisation of these financial statements, there were no new standards and interpretations in issue that were relevant to the group.

At the date of authorisation of these financial statements, the following new standards and interpretations have been issued but are not yet effective and have not been applied in these financial statements:-

- IFRS 7 (Amended) - Financial Instruments: Disclosure (effective 1 July 2011)
- IFRS 9 Financial instruments (effective 1 January 2013)
- IFRS 10 Consolidated Financial Statements (effective 1 January 2013)
- IFRS 11 Joint Arrangements (effective 1 January 2013)
- IFRS 12 Disclosure of Interests in Other Entities (effective 1 January 2013)
- IFRS 13 Fair Value Measurement (effective 1 January 2013)

The directors do not anticipate that the adoption of these standards and interpretations will have a material impact on the Group's financial statements. Certain of these standards and interpretations will require additional disclosures over and above those currently included in these financial statements in the period of application.

The preparation of financial statements in accordance with IFRS requires the use of certain critical accounting estimates and also requires management to exercise judgement in applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are highly significant to the financial statements, are set out in note 3 below.

3. Principal accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies, which are also applicable to the financial statements of the Company, have been consistently applied to all the years presented.

Basis of consolidation

The financial statements consolidate the accounts of the Company and all subsidiary undertakings drawn up to the same year end.

Subsidiaries

Subsidiaries are entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than 50% of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiary entities are consolidated from the date on which control is transferred to the Group and are deconsolidated from the date on which control ceases.

In respect of subsidiaries, inter-company transactions, balances and unrealised gains on intra-group transactions are eliminated on consolidation.

The accounting policies of subsidiaries are changed where necessary to ensure consistency with the policies adopted by the Group.

Property, plant and equipment and depreciation

Property, plant and equipment are stated at historical cost, net of depreciation, at rates calculated to write off the cost, less residual value, of each asset over its expected useful life. Depreciation rates on a straight line basis are as follows:-

Motor vehicles	25%
Office furniture and fittings	25%
Computer equipment	33%
Short leasehold premium and improvements	10%

Cost includes expenditure that is directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposal are determined by comparing proceeds with carrying amount. These are included in the income statement.

Segmental reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker as required by IFRS 8 "Operating Segments". The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Executive Committee.

Financial instruments

Financial assets and liabilities are recognised on the Group's balance sheet when the Group becomes a party to the contractual provisions of the instrument. Measurement depends on their classification and is discussed below:

(i) Investments

Investments held by the Company in subsidiary entities, not held for sale, are shown at cost less any provision for impairment.

The Directors determine the classification of investments held by the Group at initial recognition and reevaluate this designation at each reporting date. At the balance sheet date all these investments were classified as available-for-sale. Available-for-sale investments are initially recognised at the fair value of the consideration given, including associated acquisition costs, which may equate to cost. On subsequent measurement, available-for-sale investments are measured at either fair value or at cost where fair value is not readily ascertainable. Changes in fair value are recognised in equity, together with the related deferred tax asset or liability. When such investments are disposed of, the accumulated gains or losses, previously recognised in equity, are transferred to the income statement.

Available-for-sale financial assets are included in non-current assets unless management intends to dispose of the investment within twelve months of the balance sheet date.

(ii) Trade and other receivables

Trade and other receivables are initially measured at fair value, and are subsequently measured at amortised cost using the effective interest method. A provision is established when there is objective evidence that the Group will not be able to collect all amounts due. The amount of any provision is recognised in the income statement.

All financial assets are reviewed annually for impairment, with any losses reflected in the income statement. Investment income is recognised in the income statement.

(iii) Cash and cash equivalents

Cash and cash equivalents include cash in hand, call deposits held with banks, and other short-term highly liquid investments with original maturities of three months or less.

(iv) Financial liabilities and equity

Financial liabilities and equity instruments issued by the group are classified in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

(a) Trade and other payables

Trade and other payables are initially measured at fair value, and are subsequently measured at amortised cost using the effective interest rate method.

(b) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax.

Taxation

Current income tax is provided on taxable profits at the current rate. Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using rates enacted at the balance sheet date which are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Deferred income tax assets are only recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Income tax and deferred tax are reflected in the income statement, unless they relate to items recognised inequity, in which case they are recognised in equity.

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that the Group will be required to settle the obligation, and the amount can be reliably estimated. Provisions are measured at the Directors' best estimate of the expenditure required to settle the obligation at the balance sheet date.

Revenue recognition

Revenue comprises commissions and fees receivable excluding value added tax and is measured at fair value. Fees on property transactions and other contingent fee arrangements are recognised as earned on the unconditional completion of a contract or when a fee is contractually due. Fees for other professional services are recognised on completion of the assignment.

Interest and investment income is recognised on a time-proportion basis using the effective interest method.

Operating profit

Operating profit is stated before income from investments, finance income, costs and losses on impairment of available-for-sale investments and taxation.

Employee benefits

No pension schemes are operated by the Group. Contributions to employees' money-purchase pension schemes are made on an arising basis where these form part of contractual remuneration obligations. The Group recognises a liability and an expense for cash-settled bonuses when contractually obliged or when there is a past practice creating a constructive obligation.

Operating Leases

Leases where the lessor retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating leases are charged to the income statement on a straightline basis over the period of the lease.

Exceptional Items

Items of income and expense that are material by size and/or nature and are non-recurring are classified as exceptional items on the face of the income statement within their relevant category. The separate reporting of these items give an indication of the Group's underlying performance.

Dividend Distributions

Dividends to the Company's shareholders are recognised as a liability when paid (if interim dividends) or approved by shareholders (if final dividends).

Critical accounting estimates and assumptions

The preparation of the consolidated financial statements in conformity with International Financial Reporting Standards requires management to make estimates and assumptions concerning the future. While the resulting accounting estimates will, by definition, seldom equal the related actual results, in the opinion of the Directors the estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are detailed below.

(a) Impairment of available-for-sale investments

The fair value of available-for-sale investments is determined by reference to the underlying value of the assets of those investments at each balance sheet date. The Directors have made provisions for impairment where there is objective evidence that fair value is less than cost.

(b) Provisions for impairment of trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost less provision for impairment. The Directors have made provisions for impairment where there is objective evidence that the Group will not be able to collect all amounts due.

(c) Revenue recognition

The Directors regularly review the basis for recognition of revenue, which comprises commissions and fees receivable excluding value added tax. The directors consider that the basis for recognition of revenue will only materially affect the carrying amounts of assets and liabilities where quantity surveying, construction management and project management are concerned, due to the estimates and assumptions which underlie the value of work yet to be completed.

4. Segment Information – Group

IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker to allocate resources to the segments and to assess their performance. In accordance with IFRS 8 the chief operating decision maker has been identified as the Executive Committee. They review the Group's internal reporting in order to assess performance and allocate resources. The Executive Committee considers that the business comprises a single activity being General Services. Therefore, the Group is organised into one operating segment and there is one reporting segment. The segment information is the same as that set out in the consolidated statement of comprehensive income, consolidated statement of financial position, consolidated statement of changes in equity and consolidated statement of cash flows.

The Group has implemented policies to ensure that credit checks are made on potential clients before work is carried out on their behalf. The amount of exposure to any individual counterparty is subject to limits set by the directors. Cash balances held are deposited with banks with AA rating.

The Group and the Company have interest bearing assets, but no interest bearing liabilities. Interest bearing assets comprise only cash and cash equivalents which earn interest at a variable rate. The interest earned on the Group's and the Company's cash and cash equivalents, denominated in sterling, derived principally from Money Market deposits of differing fixed time periods, and from call deposits held with banks which provide short-term liquidity to meet liabilities when they fall due.

The Group and the Company are exposed to interest rate risk as a result of these positive cash balances. For the year ended 30 April 2011, if LIBOR had increased by 0.5% with all other variables held constant, post tax profit and equity for the Group would have been £10,000 (2010: £10,000) higher, and for the Company £3,000 (2010: £3,000) higher. Conversely, if LIBOR had decreased by 0.5% with all other variables held constant, post tax profit and equity for the Group would have been £10,000 (2010: £10,000) lower, and for the Company £3,000 (2010: £3,000) lower.

The Group's cash and cash equivalents earned interest during the year at an average of 0.5% (2010: 0.5%), and the Company's cash and cash equivalents earned interest during the year at an average of 0.5% (2010: 0.5%)

The following table shows the contractual maturities of the Group's and the Company's financial liabilities, all of which are measured at amortised cost:
